### PAINT-WISE

Refuse to consider the price of paint in a can or keg; it is wrong. Add the labor. Good paint put-on is \$5.25 a gallon this year; poor paint, \$4.75 a gallon.

But good goes further than poor: 10 gallons Devco is as much as 15 or 18 or 20 of hundreds of paints—Devco is one of a dozen good ones.

Ten gallons Devco is \$52.50. Fifteen gallons of poor is \$71.25; eighteen gallons of worse is \$85.50; twenty gallons still worse is \$95.

This is what the head of New York's largest wholesale house says. Isn't this a sufficient reason for you to buy our California fruits; if you value quality and cleanliness at the same price you may pay for inferior goods?
